The Organization

Lincoln Center Institute for the Arts in Education, established in 1975 and located in New York City, is the educational cornerstone of Lincoln Center for the Performing Arts, Inc. It is the leading organization in developing skills of observation, imagination, and creativity through guided encounters with the visual and performing arts. Over the past 35 years, Lincoln Center Institute has shared its unique method of education with more than 20 million students, teachers, college professors, and arts administrators representing public schools, arts organizations, and professional teaching colleges in New York City, across the nation, and around the world. See www.lcinstitute.org for more information.

The Institute is located steps away from its world-renowned neighbors, The Metropolitan Opera, The New York Philharmonic, and the New York City Ballet, and a pleasant bus ride (or a walk) across Central Park to the equally celebrated Museum Mile. Lincoln Center Institute has presented countless artists, established and cutting-edge, who have brought diverse cultural perspectives and classic works to its workshops, and has developed its world-class professional development approach.
